

## Butterfly Monitoring Germany – the first six years

**International Symposium; Future of Butterflies in Europe III**

29<sup>th</sup> to 31<sup>st</sup> of March 2012, Wageningen

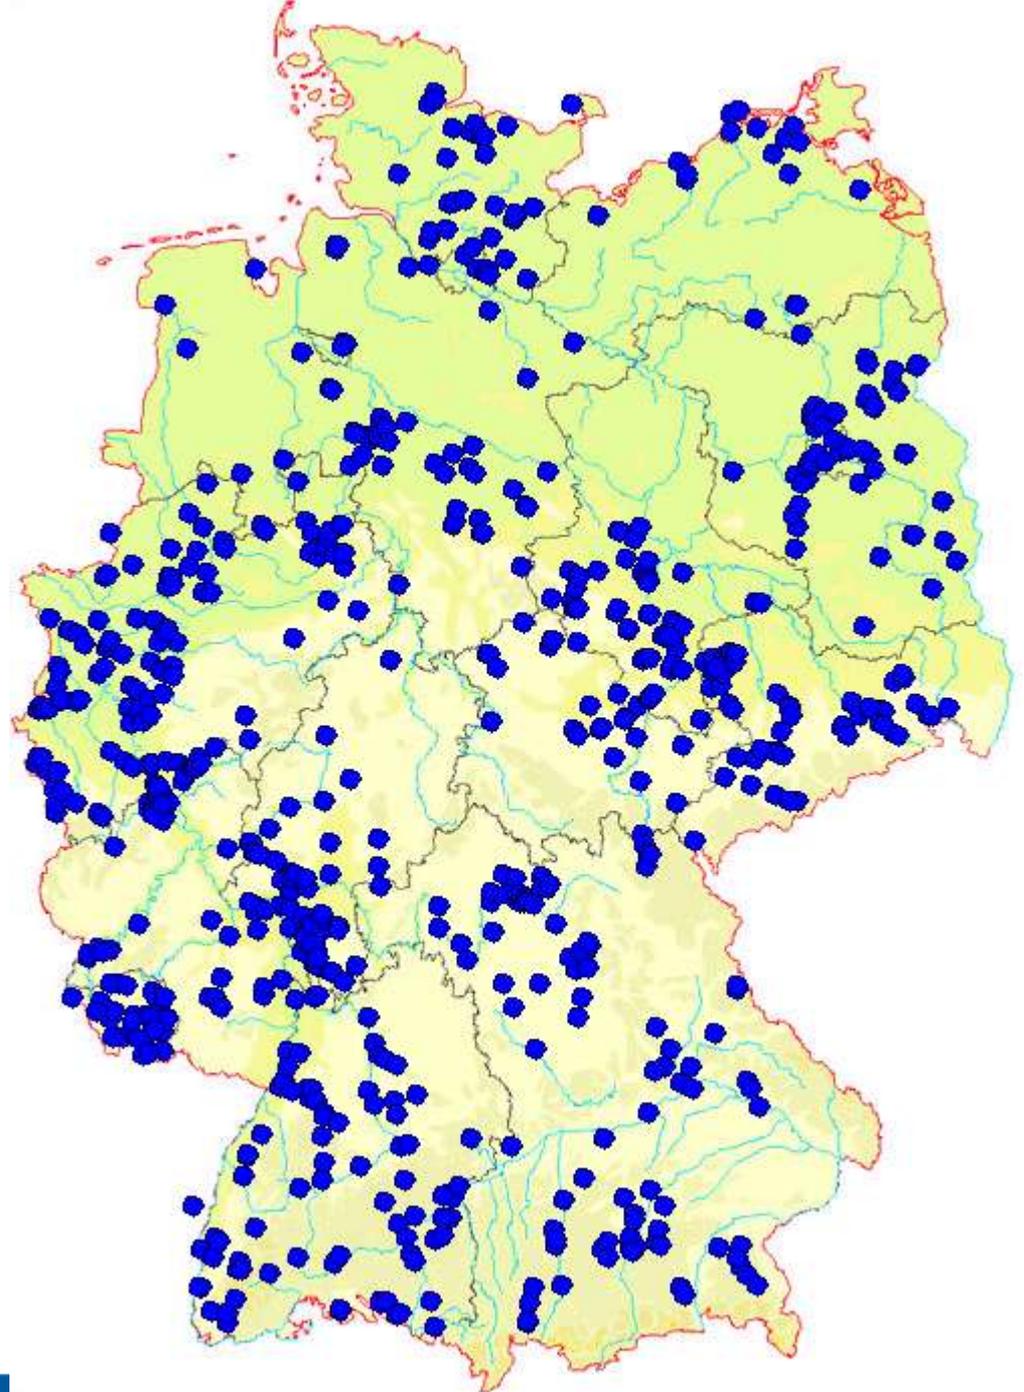

Elisabeth Kühn, Alexander Harpke, Norbert Hirneisen, Reinart Feldmann,  
Martin Musche and Josef Settele

# Distribution of transects

(February 2012)

Foto: Steffen Zacharias

- About 700 transects set up all over Germany since 2005
- 100 transect from Northrhine-Westphalia (not yet included in the database)
- Data from 300-400 transects per year

Foto: Elisabeth Rieger

# Report 2010

Data from...

- 322 transects  
on 2.762 sections (50 m)  
→ 167.203 individuals  
were counted

Jahresbericht 2010

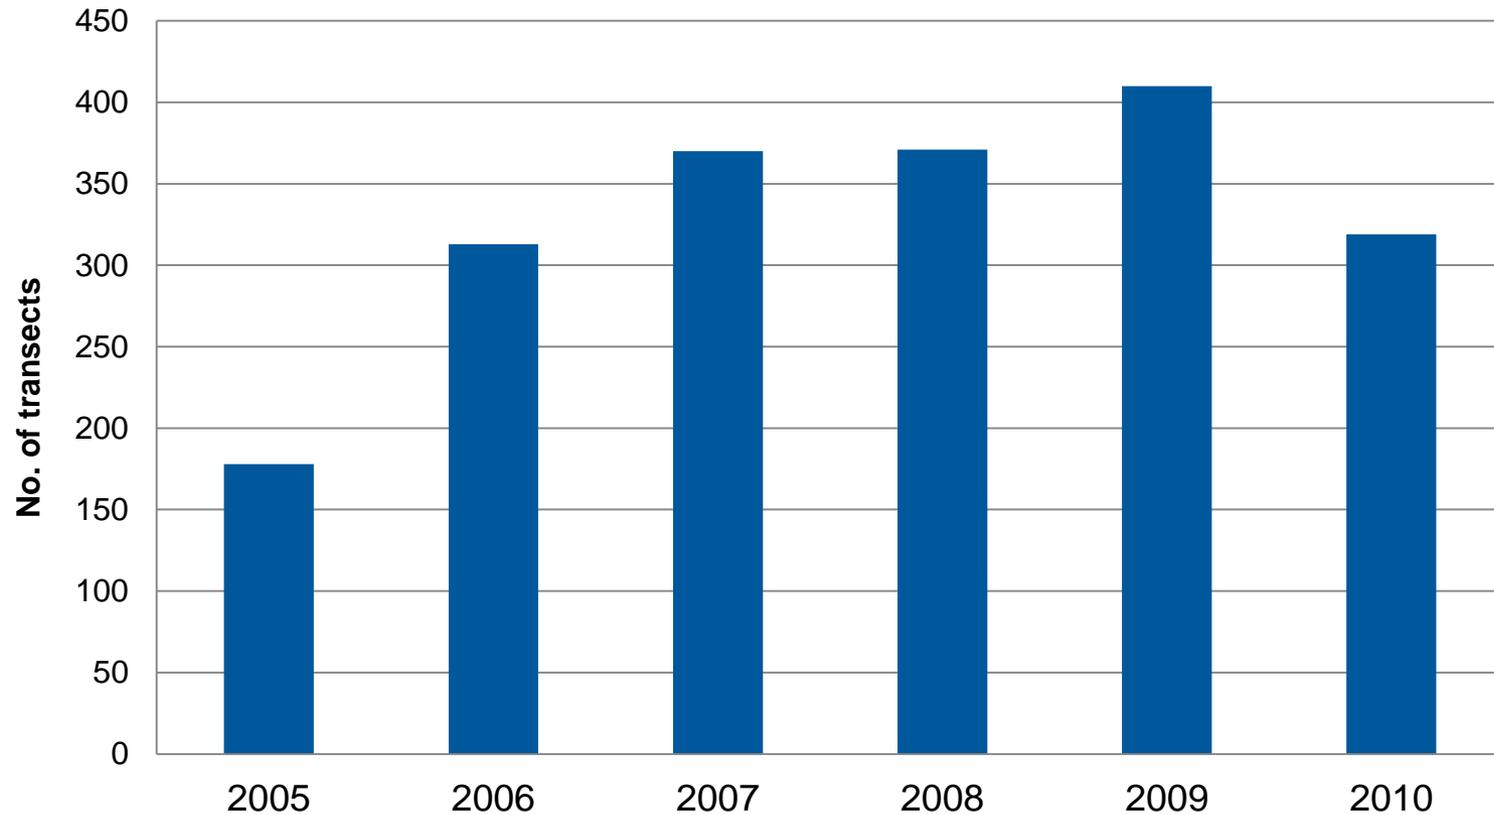

Neuigkeiten 2011

(Bearbeitung: Elisabeth Kühn, Alexander Harpke, Martin Musche, Reinart Feldmann, Norbert Hirneisen)

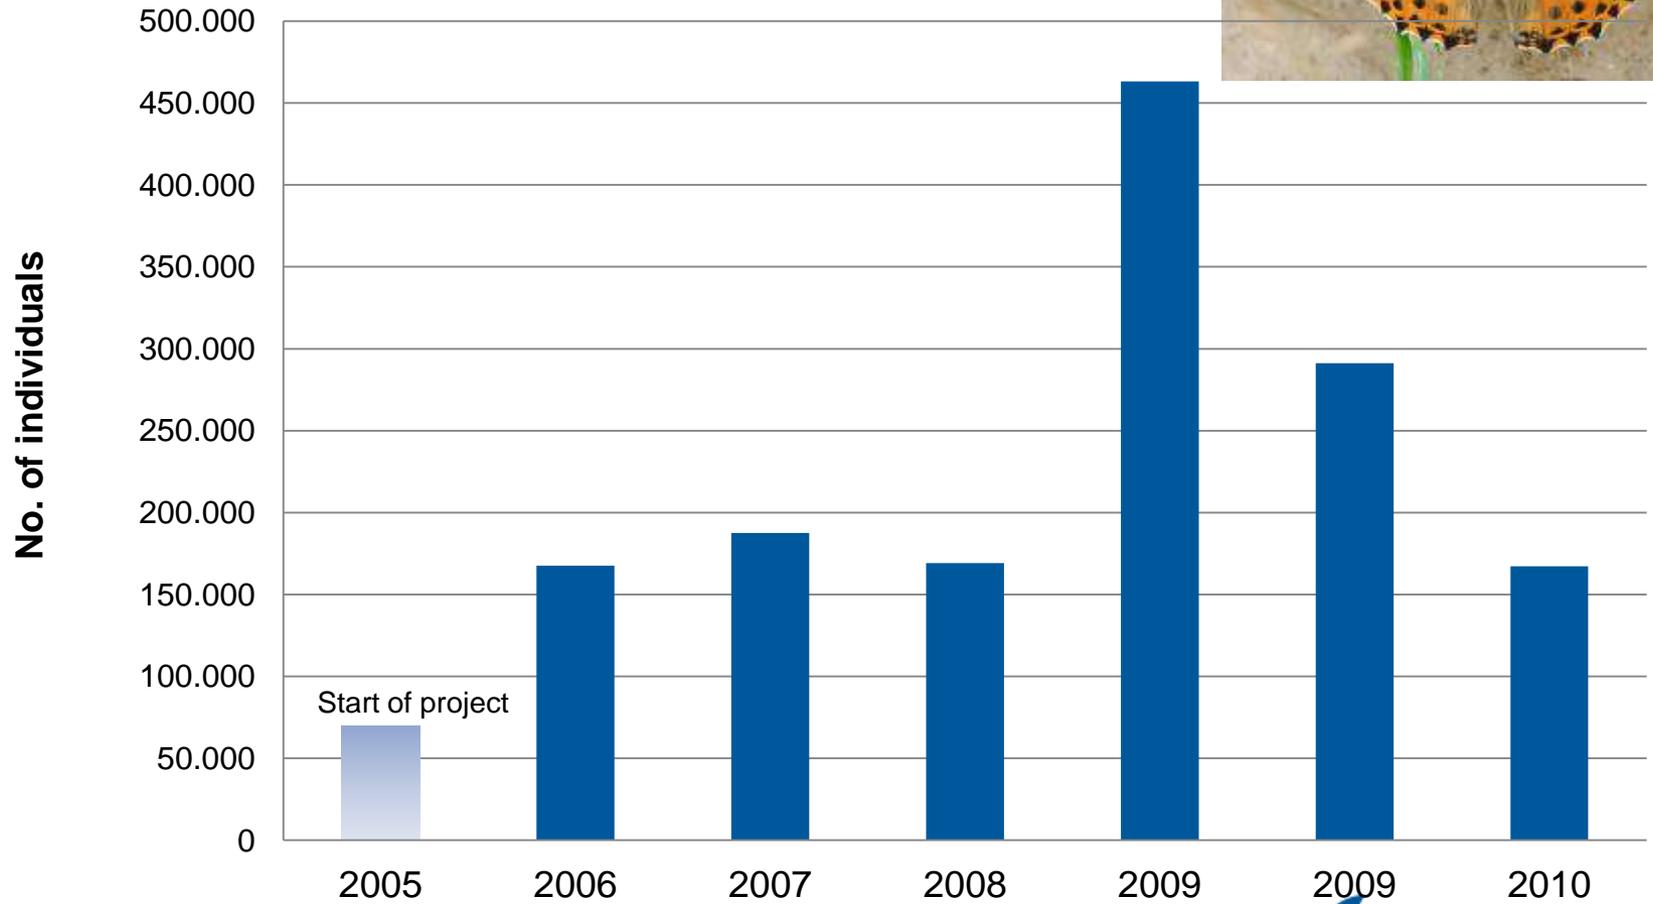

Foto: C-Falter (*Nymphalis c-album*) von Joachim Müncheberg, Berlin

## No. of transects per year

## No. of individuals counted

## Data entry online

- Only 1/3 of all transect walkers enter their data online
- 2/3 send data to UFZ (via email or on paper)
- 1/3 does not have access to internet

## Comparison of butterfly counts for

a) „Tagfalter von Sachsen“  
(Butterflies of Saxony)

b) Tagfalter-Monitoring Sachsen  
(Butterfly Monitoring Saxony)

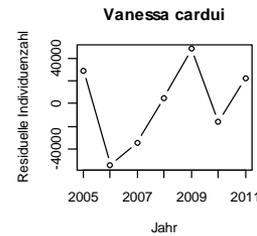

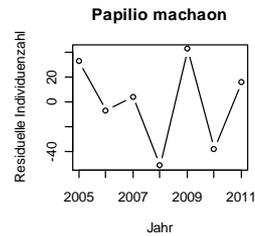

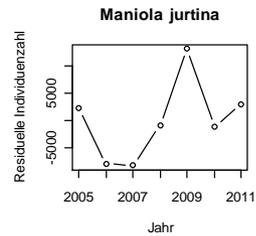

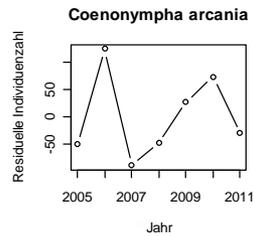

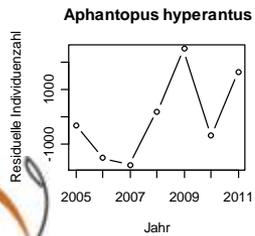

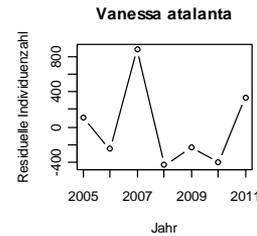

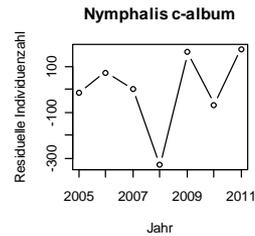

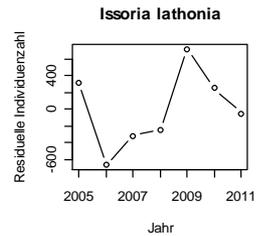

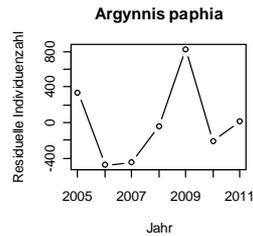

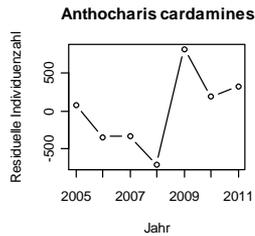

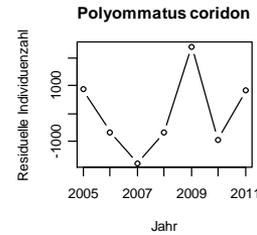

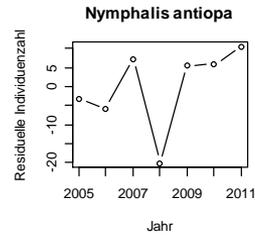

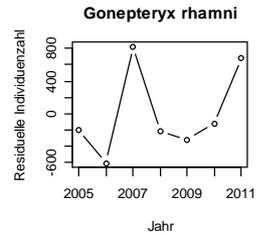

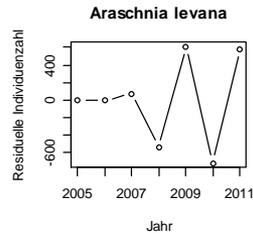

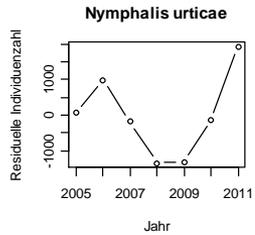

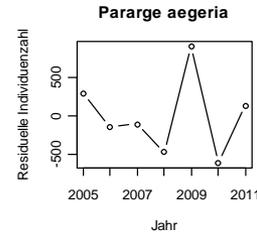

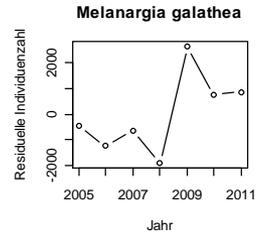

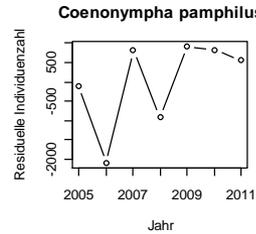

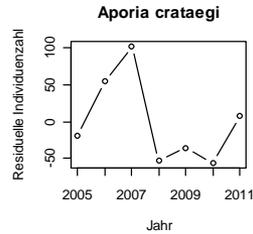

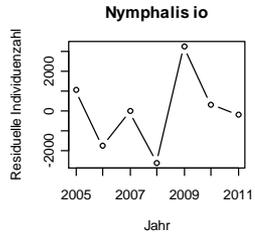

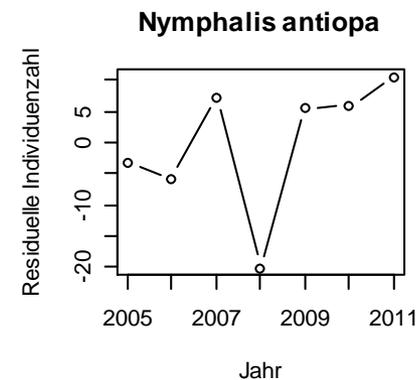

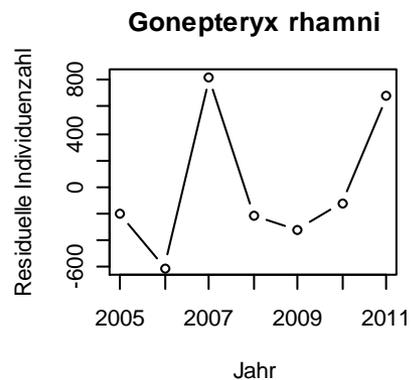

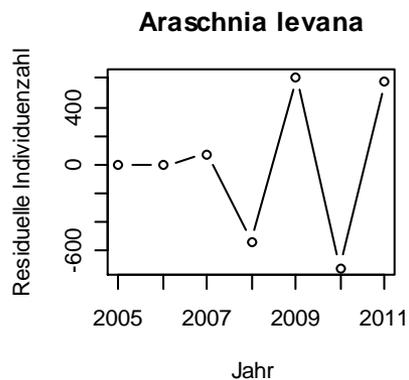

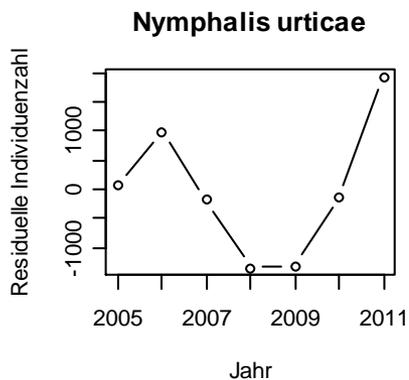

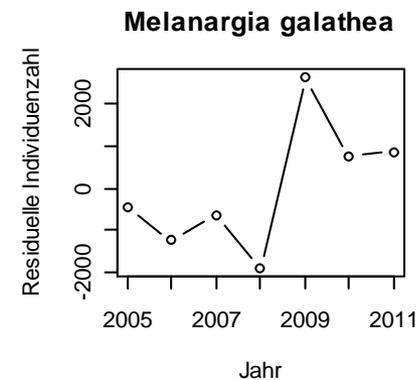

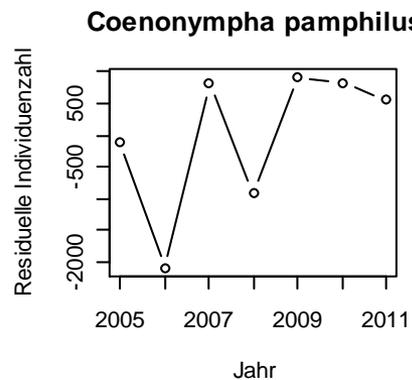

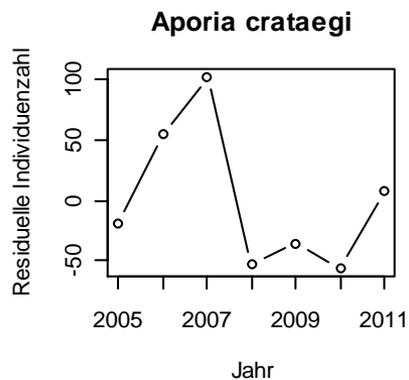

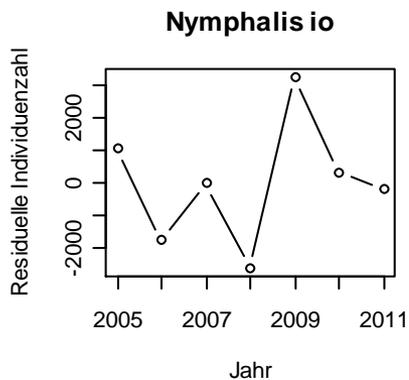

## Data quality

- Data entry without quality check
- State coordinators (volunteers!) check data for their state → first set will be finished this year
- Data will be classified (correct, doubtful, incorrect)

# First analysis for 20 species that are easy to detect

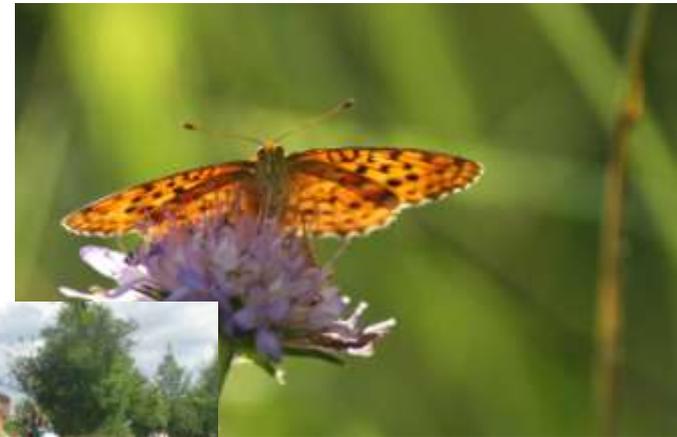

# TMD Junior-Camp 2011

## Bliesgau

# TMD Junior-Camp 2012 in Hormersdorf (Erzgebirge)

29. June - 1. July 2012
