The world is increasingly aware of the perilous state of wildlife, and there have been widespread reports of declines in numbers of insects. Butterflies are no exception, being threatened in many parts of the world. There is an urgent need to greatly improve the knowledge of this vital part of biodiversity to help inform their conservation.

Cooperation

How can we create cooperation in the country?

Dissemination

*How can we find volunteers for our
BMS?*

Connections

*Who can be collaborator of the
BMS?*

How can we develop the “BMS community”?

Support

*How can we support the
national/regional coordinators from
eBMS?*

Materials

What do you need for your volunteers?
